## Version

To make sure the file don't have any error, Please using software version in the list here:

**Skecth:** Version 52.4 or later

**Figma:** Release 67

## Installation

1. If you don't have any software, you can download or buy License of Sketch here:

<https://www.sketchapp.com/>

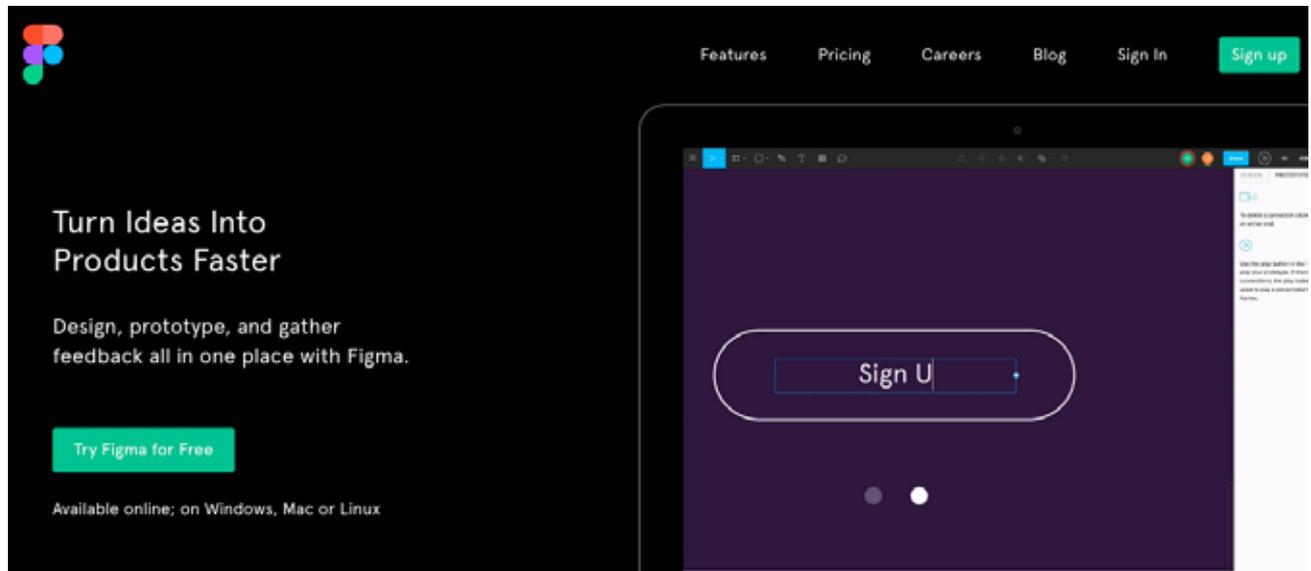

The screenshot shows the Sketch website homepage in dark mode. The navigation bar at the top includes the Sketch logo, and links for EXTENSIONS, LEARN, COMMUNITY, SUPPORT, PRICING, and TRY FOR FREE. The main headline reads "Find your focus" in large white text. Below it, a sub-headline says "Introducing Dark Mode in Sketch. Hit the lights, lose the distractions and watch your designs come to life, letting you focus on what matters most — your work." At the bottom, there are two buttons: "Try for Free" and "Watch the Video".

Remember Sketch is software just for Mac OS system.

If You using Window OS, You Still can using Figma to open Sketch files

You can download Figma here: (For Free)

<https://www.figma.com/>

## 2. Installation

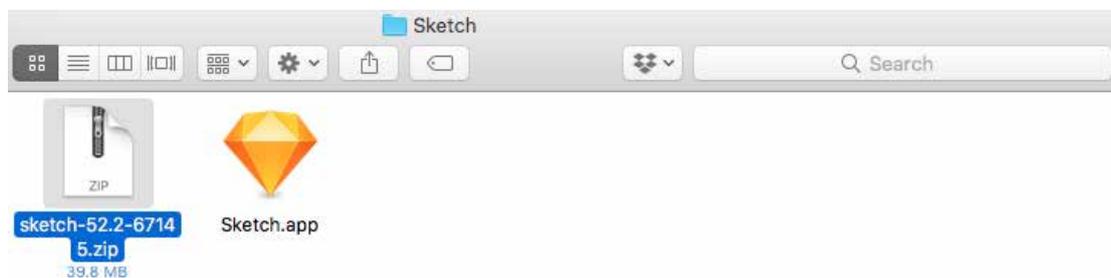

With Sketch - Download and Extract the zip file.
